

1. IDENTIFICATION OF THE SUBSTANCE/MIXTURE AND OF THE COMPANY/UNDERTAKING

Trade Name	Classic SAE 20W/60 Premium
Supplier	Wagner Spezialschmierstoffe GmbH & Co. KG Speckbrodi 8, D – 86759 Wechingen Tel. +49 9085-96009-10 E-mail: wagner@wagner-german-oil.com www.wagner-german-oil.com
Responsible Division	Product Safety Tel. +49 9085-96009-10
Emergency Telephone	Tel. +49 9085-96009-10 (8:30 – 16:30)

1.1 Product Identifier

WAGER Classic SAE 20W/60 Premium

1.2 Relevant identified uses of the substance or mixture and uses advised against

Use of the substance/preparation

Engine oil

2. HAZARDS IDENTIFICATION

2.1 Classification of the substance or mixture

Voluntary product information following the Safety Data Sheet format
This product is not classified hazardous in accordance with Regulation (EC) No 1272/2008.

2.2 Label elements

Labelling according to Regulation (EC) 1272/2008

The product does not require a hazard warning label in accordance with Regulation (EC) No 1272/2008.

Hazardous component(s) to be indicated on label (Regulation (EC) No. 1272/2008)

Supplemental information

EUH210

Safety data sheet available on request.

2.3 Other hazards

Product can form a film on the water surface that can prevent oxygen exchange. Refer to section 11, 12 and 15.

3. COMPOSITION/INFORMATION ON INGREDIENTS

3.2 Mixture

Chemical characterization

Mineral oil
Additive

Other information

Mixtures are not subject to registration.

4. FIRST AID MEASURES

General information

In case of persistent symptoms consult doctor. Remove soiled or soaked clothing immediately, do not allow to dry. Never give anything by mouth to an unconscious person.

After inhalation

Remove the casualty into fresh air and keep him calm. In the event of symptoms take medical treatment.

After skin contact

After contact with skin, wash immediately with plenty of water and soap. Consult a doctor if skin irritation persists. Remove contaminated clothing.

After eye contact

Separate eyelids, wash the eyes thoroughly with water (15 min.). Take medical treatment.

After ingestion

Do not induce vomiting - aspiration hazard. Summon a doctor immediately.

Adhere to personal protective measures when giving first aid

First aider: Pay attention to self-protection!

4.2 Most important symptoms and effects, both acute and delayed

Until now no symptoms known so far.

5. FIREFIGHTING MEASURES

5.1 Extinguishing media

Suitable extinguishing media

Foam, Dry powder, Carbon dioxide, Water spray jet.

Unsuitable extinguishing media

Full water jet.

5.2 Special hazards arising from the substance or mixture

In the event of fire, the following can be released: Pyrolysis products; Hydrocarbons; Carbon dioxide (CO₂); Carbon monoxide (CO); Hydrogen sulfide (H₂S); Nitrogen oxides (NO_x); Phosphorus oxides; Smoke.

5.3 Advice for firefighters

Special protective equipment for firefighting

In case of combustion use a suitable breathing apparatus. Wear full protective suit. Do not allow run-off from firefighting to enter drains or water courses.

6. ACCIDENTAL RELEASE MEASURES

6.1 Personal precautions, protective equipment and emergency procedures

Ensure adequate ventilation. Exclude sources of ignition and ventilate the area. Avoid contact with skin, eyes and clothing. High risk of slipping due to leakage/spillage of product. Avoid breathing vapours.

6.2 Environmental precautions

Do not allow to enter drains or waterways. Prevent spread over a wide area (e.g. by containment or oil barriers).

6.3 Methods and material for containment and cleaning up

Pick up with absorbent material (e.g. sand, sawdust, general-purpose binder, kieselguhr). When picked up, treat material as prescribed under Section 13 "Disposal".

6.4 Reference to other sections

Refer to protective measures listed in Sections 7 and 8.

7. HANDLING AND STORAGE

7.1 Precautions for safe handling

Advice on safe handling

Avoid formation of oil dust. Hot product develops flammable vapours. Handle and open container with care. Avoid skin and eye contact.

Advice on protection against fire and explosion

Keep away from sources of heat and ignition. Do not smoke. Take precautionary measures against static discharge.

7.2 Conditions for safe storage, including any incompatibilities

Recommended storage temperature

Value < 50 °C

Requirements for storage rooms and vessels

Keep only in original packaging.

Hints on storage assembly

Keep away from flammable substances.

Storage class according to TRGS 510

Storage class according to TRGS 510 10 Flammable liquids

Further information on storage conditions

Keep container tightly closed and dry. Keep in a cool place

8. EXPOSURE CONTROLS/PERSONAL PROTECTION

Additional information about design of technical systems: No further data; see item 7.

8.1 Control parameters

Exposure limit values

Distillates (petroleum), hydrotreated heavy paraffinic

List EU

Value 5 mg/m³

8.2 Limitation and supervision of exposure

Exposure controls

Technical measures for preventing exposition. Organisational measures for preventing exposition. Provide adequate ventilation. The type of personal protective equipment must be selected depending on the concentration and quantity of the hazardous substance at the workplace.

General protective and hygiene measures

Observe the usual precautions for handling chemicals. Store work clothing separately. Wash hands before breaks and after work. Cloths contaminated with product should not be kept in trouser pockets. Do not eat, drink or smoke during work time.

Respiratory protection

Not necessary, but do not inhale vapours. In situations where misting or flying may occur use appropriate certified respirators. Short term: filter apparatus, Filter A/P2

Hand protection

For this purpose, protective gloves are suitable, for instance, made by the company KCL GmbH, D-36124 Eichenzell, phone +49 (0)6659 87300, e-mail: vertrieb@kcl.de with the following specification (tested as per EN374): Camatril (Item No: 731; Material: Nitrile; Minimum layer thickness: 0.33 mm; Burst time: 480 min) Dermatril (Item No: 740; Material: Nitrile; Minimum layer thickness: 0.11 mm; Burst time: 30 min) The protective gloves to be used must comply with the specifications of the EU directive 89/686/EEC and the standard EN374 derived from it. The above mentioned burst times are based on laboratory measurements of KCL made as per EN 374 and are applicable only for this KCL product.

Eye protection

Preventive skin protection by protective skin ointment.
Tightly fitting safety glasses.

Body protection

Clothing as usual in the chemical industry. Protective gloves resistant to chemicals.

9. PHYSICAL AND CHEMICAL PROPERTIES

9.1 Information on basic physical and chemical properties

Form	Liquid
Colour	Brown
Odour	Characteristic
Flash point	≥ 200 °C (DIN ISO 2592)
Upper/lower flammability or explosive limits	
Lower explosion limit	0.6 Vol%
Upper explosion limit	6.5 Vol%
Density @ 15 °C	0.84-0.86 g/cm ³
Solubility in water	Insoluble
Viscosity, kinematic @ 100 °C	22.5 - 24 mm ² /s
Viscosity, dynamic @ 40 °C	159.6 mm ² /s
	No data available.

10. STABILITY AND REACTIVITY

10.1 Reactivity

No hazardous reactions when stored and handled according to prescribed instructions.

10.2 Chemical stability

Stable under recommended storage and handling conditions (see section 7).

10.3 Possibility of hazardous reactions

Evolution of flammable mixtures possible in air when heated above flash point and/or during spraying or misting.

10.4 Conditions to avoid

Oxidising agents.

10.6 Hazardous decomposition products

Refer to section 5.3.

11. TOXICOLOGICAL INFORMATION

Acute oral toxicity

Based on available data, the classification criteria are not met.

Acute dermal toxicity

Based on available data, the classification criteria are not met.

Acute inhalational toxicity

Based on available data, the classification criteria are not met.

Skin corrosion/irritation

Based on available data, the classification criteria are not met.

Serious eye damage/irritation

Based on available data, the classification criteria are not met.

Sensitization

Based on available data, the classification criteria are not met.
May cause sensitization by skin contact.

Mutagenicity

Based on available data, the classification criteria are not met.

Reproductive toxicity

Based on available data, the classification criteria are not met.

Carcinogenicity

Based on available data, the classification criteria are not met.

Specific Target Organ Toxicity (STOT)

Based on available data, the classification criteria are not met.

Aspiration hazard

Based on available data, the classification criteria are not met.

Other information

There are no details for the formulation/mixture itself.
It was classified in accordance with the calculation method of the directive (EC) No. 1272/2008 [CLP].

12. ECOLOGICAL INFORMATION

12.1 Toxicity

General information

There are no data available on the mixture itself. The mixture has been assessed following the summation method of the CLP Regulation (EC) No 1272/2008 and is not classified as dangerous for the environment.

12.2 Persistence and degradability

General information

There are no data available on the mixture itself.

Biodegradability

The product is not readily biodegradable according to OECD criteria but is inherently biodegradable.

12.3 Bioaccumulative potential

There are no data available on the mixture itself.

12.4 Mobility in soil

General information

There are no data available on the mixture itself.

12.5 Results of PBT and vPvB assessment

Evaluation of persistence and bioaccumulation potential

The product contains no PBT or vPvB substances.

12.6 Other adverse effects

General information / ecology

Do not discharge product unmonitored into the environment.

13. DISPOSAL CONSIDERATIONS

13.1 Waste treatment methods

Disposal recommendations for the product

The waste code numbers/waste designations are to be assigned in accordance with EWC with reference to industrial fields and processes. Disposal as per EC directive 75/442/ECC and 91/689/ECC on waste and hazardous waste in the current versions as amended from time to time.

Dispose of waste according to applicable legislation.

EWC waste code 13 02 05*

lubricating oils

Dispose of as hazardous waste.

mineral-based non-chlorinated engine, gear and

Disposal recommendations for packaging

Packaging that cannot be cleaned should be disposed off as product waste.

Uncontaminated packaging may be taken for recycling.

Completely emptied packagings can be given for recycling.

14. TRANSPORT INFORMATION IN ACCORDANCE WITH ADR / RID / ADN / IMDG / ICAO / IATA

In accordance with ADR / RID / IMDG / IATA / AND

Land transport ADR/RID

14.6 Special precautions for user

Non-dangerous goods

Marine transport IMDG/GGVSee

14.6 Special precautions for user

Non-dangerous goods

Air transport ICAO/IATA

14.6 Special precautions for user

Non-dangerous goods

15. REGULATORY INFORMATION

15.2 Chemical safety assessment

For this preparation a chemical safety assessment has not been carried out.

16. OTHER INFORMATION

The information in this SDS is correct to the best of our knowledge at the time of its publication. The information is intended to give you advice about the safe handling of the product named in this safety during storage, processing, transport and disposal. The details are not transferable to other products. The information given in this safety combination with any other materials or in any process, or undergoes processing, can use the information in this SDS, to the extent that it does not specifically indicate otherwise, are not transferred to the new made material. The material data referred to in item 9 are safety information, but no guarantees on properties. Warranties are excluded without clarification of the technical intended use and the operating conditions. If you have further questions, we are available.
